

CAMPUS ACCESSIBILITY MAP

STUDENT ACCESSIBILITY SUPPORT SERVICES

The goal of Student Accessibility Support Services is to give students with physical, cognitive, and psychological conditions the best chance at academic excellence. The Dean of Students (DOS) Office is here to help students with accessibility support, both in and out of the classroom.

For students who need accessibility support on the physical campus, accommodations requests will be submitted to the Associate Dean of Students who will work closely with Infrastructure, Health, and Safety and the Residential Colleges (RCs) on assessing the request. There are designated accessibility suites available in each RC for students with mobility limitations. Additionally, there are ramps and tactile flooring throughout much of the campus. Campus accessibility tours can be requested through Student Accessibility Support Services at accessibility@yale-nus.edu.sg.
